

# Schenk Guitars **UNLEASHES** the **KILLER PAINT SERIES**

Schenk Guitars continues **Redefining Masterclass** by pioneering the next generation of guitar finishes. Unveiled at the 2006 Newport Guitar Festival, the Tru-Fire Edition of the Killer Paint Series has burst open the door to a new world of acoustic guitar experience.

**"It's time to totally change the perception of painted guitars. I'm sure purists will cringe and traditionalists will scoff, but nobody can deny the Masterclass Playability, Sound and Sustain of these guitars. Advanced fingerstyle players now have a new dimension in musical expression."**

**- Rod Schenk**
